

Dear FCC,

The recent developments involving Sinclair Broadcast Group Inc. concern me greatly. They are using their market share of the US television industry to air blatantly partisan material as news. This is not a partisan issue, but would concern me greatly no matter whose side the programs would be supporting. I believe the role of the media is to provide balanced, fair and impartial information for people to be able to make their own decisions. Sinclair is acting very irresponsibly and they should be held accountable for it.

Thank you for your time,  
Will Roberts
